	#	%	#	%	#	%	#	%	#	%
Biology										
Chemistry										
Psychology										
Mathematics										
Other										

Instructions: In a table (Table 6) provide data (average number and percentage) on undergraduate students' retention for the previous four years. Enter data for the overall institution and for each participating department/school separately (examples are shown; include others as appropriate). Under retention, enter the average number of students continuing in the program per year for the previous three years.

¹ Include Alaska Natives and natives of the U.S. Pacific Islands.

² Include and identify any other categories that the institutional policy has determined to be underrepresented in biomedical or behavioral research fields.
